

# Kingsley Gazette

## A Word From Sheila- Active Life Manager

We had a great month experiencing high school performances of Singin' in the Rain and Encore. We loved seeing all the high school talent! We also had a performer, Mike Henry come in and share his love of music. A lot of reminiscing happened during his show! Toes were tapping along with lots of singing and smiles! We had our lunch outings to Davanni's and Culver's after our venture to Little Six Casino. We had first ever Spring Swap and it was a success! Thanks everyone for participating! We hope you found some special treasures!

We will be busy this month as we begin spending more time outside! There will be a variety of musical talent coming to Kingsley from choir, piano, guitar, young students and ukuleles. Norm the Magician will also be coming to share some magic tricks! You are sure to love his show! Of course, we will also be celebrating Mother's Day with a Tea for the mother's. There is a sign up for this event with no limit to the number attending. Come, enjoy a special time with other mothers!

Be sure to watch Channel 1-2 for the daily listing of events happening in our community!

# Petals Dementia Tips with Emma!

## Alzheimer's and Other Dementias

Please reach out for any  
support or questions! Ext: 4033

Dementia is not a single disease; it's an overall term — like heart disease — that covers a wide range of specific medical conditions. Did you know that there are over 100 types of Dementia? The most common type of Dementia is Alzheimer's disease, accounting for 40-70% of all Dementia related diagnoses.

## Dementia

Dementia is an umbrella term that describes a collection of symptoms that are caused by disorders affecting the brain. It is not one specific disease. Dementia affects thinking, behaviour and the ability to perform every day tasks, and brain function is affected enough to interfere with the person's normal social or working life. The most common type of dementia is Alzheimer's disease.
